Enthusiastic MCA student with strong programming and web development skills in JavaScript, React.js, and Java. Passionate about building scalable applications and contributing to real-world IT projects. Eager to apply analytical thinking and problem-solving abilities in a dynamic software environment.

SKILLS

Programming Languages:	C, Java, HTML, CSS, JavaScript
Frameworks/ Libraries:	Tailwind CSS, React.js, Node.js, Express.js
Databases:	MySQL, MongoDB
Tools & Platforms:	GitHub, VS Code

EDUCATION

- | | |
|---|----------------------------------|
| <ul style="list-style-type: none">Master of Computer Applications (MCA)
Jaypee Institute of Information Technology, Noida
CGPA: 9.65 | <i>July (2025) – May (2027)</i> |
| <ul style="list-style-type: none">Bachelor of Computer Applications (BCA)
CGPA: 8.0 | <i>July (2022) – July (2025)</i> |

PROJECTS

- Shopping Management System**
 - Developed a web-based e-commerce platform allowing users to browse and purchase products online.
 - Built using React.js, Tailwind CSS, and Redux Toolkit for efficient state management.
 - Implemented dynamic UI components, optimized performance, and improved overall user experience.
- Weather Application**
 - Created a real-time weather app that displays weather details using live API data based on user location.
 - Developed with HTML, CSS, and JavaScript, integrating API handling and responsive design.
- Bank Application**
 - Designed and implemented a Java-based console application for banking operations such as account creation, deposits, withdrawals, and balance checks.
 - Applied Object-Oriented Programming (OOPs) principles for modular and maintainable code.
- Calculator**
 - Built a responsive calculator for basic arithmetic operations using HTML, CSS, and JavaScript.
 - Focused on intuitive design and clean, efficient implementation.
